** Numbers may not sum up due to rounding.

[1] As a percentage of the Portfolio's Net Asset Value.

[2] Benchmark: MSCI China All Shares Net Total Return Index, USD. Investors should note that the Portfolio does not intend to track this index, which is included here for performance comparison purposes only. Performance returns of the benchmark are calculated in USD.

[3] Performance returns are calculated in the currency of the relevant Share Class on (i) a NAV to NAV basis (ii) a NAV to NAV basis taking into account an assumed 5% initial sales charge and nil realisation fee indicated in the table above as "with initial sales charge", and both (i) and (ii) are calculated on the assumption that all dividends and distributions made by the relevant Share Class (if any) are reinvested, taking into account all charges which would have been payable upon such reinvestment. Share Classes which are designated in a currency other than USD are hedged into the Base Currency of the Portfolios (i.e. USD). Further details are set out in the Prospectus under the section "Share Class Hedging".

[4] Up to 5%. The initial sales charge is a percentage of the purchase price and may be charged by either the Distributor or any sub-distributor.
