ASX ANNOUNCEMENT

NB Global Corporate Income Trust announces Target Distribution for FY2021

03 July 2020, Sydney: Global investment manager Neuberger Berman, manager of the NB Global Corporate Income Trust (ASX:NBI or “the Trust”), today announced NBI’s Target Distribution1 for the upcoming financial year 2021 at a rate of 4.50% per annum (net of fees and expenses), which equates to 0.696 cents per Unit paid monthly.

Despite declining interest rates across global fixed income markets, as central banks address slowing global economies, and the significant impact of COVID 19, Head of Intermediary Distribution for Neuberger Berman, Matt Thompson was pleased to note that not only was NBI able to meet its Target Distribution for the financial year just ended on 30 June, but has also announced a Target Distribution for the upcoming financial year, which remains highly competitive against other sources of income.

In the past 12 months, we have seen the US Federal Reserve cut cash rates to near 0% and the Reserve Bank of Australia cut rates to 0.25%. Moreover, the economic impact of COVID 19 has seen companies suspend or significantly reduce their equity dividends. For investors looking for a regular, consistent and predictable income stream, Mr Thompson added that fixed income continues to provide an attractive entry point in periods of market dislocation.

While volatility in global markets have continued to decline in recent months, there remains uncertainty around re-openings and the timing and magnitude of an economic recovery. Global central banks have continued to support the credit market, led by the U.S. Federal Reserve implementing measures such as purchasing corporate credit. Against this backdrop, Neuberger Berman is continuing to find selective value opportunities in the high yield market.

“While conditions remain volatile, we believe credit, specifically actively managed high yield corporate bonds, presents an opportune investment for investors based on current valuations, historical performance patterns, and the specific characteristics of the current environment.” added Mr Thompson.

NBI distributes monthly, with the first distribution of its FY2021 Target Distribution to be announced at the end of July and paid in mid August.

---

1. The Target Distribution is the distribution rate per annum (net of fees and expenses) on the NTA per Unit as at 1 July, which the Trust targets for each upcoming 12 month period ending 30 June. It is only a target and may not be achieved. Actual distributions will be monitored against the Target Distribution. The Target Distribution will be formally reviewed at least annually (as at the end of each financial year) and any reduction in Target Distribution will be notified by way of ASX announcement as required. Investors should review the “Risk Factors” set out in Section 8 of the Product Disclosure Statement dated 21 January 2020.

Mr Harvey H Kalman, Director of Equity Trustees Limited has authorised this document be given to the ASX.
