31 July 2026

Neuberger EMD Corporate - Social and Environmental Transition Fund

INVESTMENT OBJECTIVE

The Portfolio aims to achieve a target average return of 1-2% over the Benchmark before fees over a market cycle (typically 3 years) and to have a positive social and environmental impact by investing primarily in debt issued in Emerging Market Countries. **Investors should note that the target return is not guaranteed. Please refer to additional disclosures in footnote **.**

Hedged Class.

[1] As a percentage of the Portfolio's Net Asset Value.

[2] Benchmark: Effective 31 March 2026 the J.P. Morgan ESG CEMBI Diversified Index was rebranded and renamed to the J.P. Morgan Screened Tilted & Reweighted CEMBI Diversified Index. Investors should note that the Portfolio does not intend to track this index, which is included here for performance comparison purposes only. Performance returns of the benchmark are calculated in USD.

[3] Performance returns are calculated in the currency of the relevant Share Class on (i) a NAV to NAV basis (ii) a NAV to NAV basis taking into account an assumed 5% initial sales charge and nil realisation fee indicated in the table above as "with initial sales charge", and both (i) and (ii) are calculated on the assumption that all dividends and distributions made by the relevant Share Class (if any) are reinvested, taking into account all charges which would have been payable upon such reinvestment. Share Classes which are designated in a currency other than USD are hedged into the Base Currency of the Portfolios (i.e. USD). Further details are set out in the Prospectus under the section "Share Class Hedging".

[4] Up to 5%. The initial sales charge is a percentage of the purchase price and may be charged by either the Distributor or any sub-distributor.

[5] Details on the distribution policies of the Share Classes are set out in the Prospectus under the section headed "Distribution Policy". Distributing classes may pay dividends out of capital and such dividends may result in an immediate decrease in the NAV of the relevant Shares. Distributions are not guaranteed.

[6]Source: Bloomberg Barclays PLC. Bloomberg Barclays credit quality rating is based on the conservative average of Moody's, S&P, and Fitch. If Moody's, S&P and Fitch all provide a credit rating, the rating is the median of the three agency ratings. If only two agencies provide ratings, the rating is the more conservative rating. If only one agency provides a rating, then the rating reflects that agency's rating. If none of the agencies provide ratings, the security is considered not rated and may be assigned an equivalent rating by the investment adviser.

Effective 3 October 2022, the fund changed its name and investment objective. Prior to that date, the fund was named Neuberger Berman Emerging Market Corporate Bond Fund and it was managed without an objective to have a positive social and environmental impact and it wasn't adhering to the Sustainable Exclusion Policy.

The yields shown represent the portfolio's annualised income expectations calculated on a gross basis as at the valuation date; they are not guaranteed and may change. Short-term market movements and interest-rate shifts can cause the income and the capital value of the portfolio to fluctuate, potentially reducing future yields.

**Investors should note that the target return is not guaranteed over a market cycle, a 12-month or any period and the Portfolio's capital is at risk. Investors should also note that, over the course of a market cycle, there may be significant periods of time during which the performance of the Portfolio will deviate from the targeted return and the Portfolio may experience periods of negative return. There can be no guarantee that the Portfolio will ultimately achieve its investment objective.

Unless stated otherwise, all information as of 31 July 2026 and sourced from Neuberger, Blackrock Aladdin and Morningstar.
