How did the Fund perform last year?

The Fund's performance was positive over the year, supported by broad-based sector strength, but it lagged the Russell 1000® Value Index. Financials, Materials, and Energy holdings were the largest contributors to absolute returns, while Communication Services holdings were the primary detractor. U.S. equities advanced amid periods of volatility tied to geopolitical tensions in the Middle East and shifting U.S. Federal Reserve policy expectations, with major indices reaching new all-time highs during the year, providing a supportive backdrop for the Fund's investment approach.
