How did the Fund perform last year?

The Fund generated a positive total return but underperformed the Russell 1000® Growth Index (the Index) for the year. Relative performance benefited from strong stock selection and an overweight within the Industrials sector versus the Index, particularly Machinery holdings, as well as stock selection within IT, led by Electronic Equipment and IT Services holdings. These gains were more than offset by weak stock selection within Health Care, particularly Health Care Equipment & Supplies holdings, and within Consumer Discretionary, driven by Specialty Retail holdings.
