NEUBERGER

Neuberger Private Equity Open Access Fund

Monthly Commentary | October 2026

Net Asset Value and Performance Highlights

The Neuberger Private Equity Open Access Fund ("Open Access" or the "Fund") closed September 2026 with a Net Asset Value of €291.8 million.

For September 2026, the Institutional Class shares of Open Access returned 1.05%. We saw value appreciation across sectors, with the greatest coming from diversified, information technology, and industrial investments.

The Fund's Institutional Class shares continue to generate compelling risk-adjusted returns, with a 1-year trailing net return of 16.43% and 21.12% since inception having launched in June 2025.

Portfolio Update

Through September, the Fund has approved 47 private equity investments alongside 41 leading managers, who we believe are well positioned to drive value and improve these businesses. During the month, the Fund contributed additional capital to its existing investment in Technology Company #1, an enterprise data analytics and AI platform, and invested in one new portfolio company:

- **Trinity Consultants** is a leading provider of engineering and consulting services to the natural and built environment, helping clients in advanced manufacturing, life science, healthcare, and data centers solve complex challenges. Trusted by 10,000+ clients worldwide, its 2,000+ experts across 100+ offices combine deep local regulatory knowledge with specialized engineering and science capabilities, delivering innovative, technology-enabled solutions that de-risk mission-critical projects. As an example, Trinity's acoustic team helped design and verify the Dublin headquarters of Ireland's Land Development Agency, creating a flexible workplace that balances collaboration with privacy. Neuberger invested in Trinity Consultants alongside Veritas Capital.

Since inception, the Fund's performance has been mostly driven by company-level appreciation tied to business fundamentals and sponsor execution of value-creation plans, rather than by one-time discount capture. Our direct investment approach emphasizes high-conviction, hand-selected investments in growing businesses, with a focus on long-term alpha generation through rigorous underwriting, ongoing monitoring, and active engagement with our leading sponsors.

We believe lead sponsors remain in the early stages of executing their value creation plans, leaving meaningful room for further growth.

Deal flow remains robust, fueled by the strength and network of relationships across the $170+ billion Neuberger Private Markets platform. We believe we are invested in high-quality, resilient companies that we are excited to own today, tomorrow, and in the future, and investments that are best suited for the nature of the Fund.

RISK CONSIDERATIONS

Prospective investors should be aware that an investment in the Neuberger Private Equity Open Access Fund (the "Fund") is speculative and involves a high degree of risk that is suitable only for those investors who have the financial sophistication and expertise to evaluate the merits and risks of an investment in the Fund and for which the Fund does not represent a complete investment program. An investment should only be considered by persons who can afford a loss of their entire investment. The following is a summary of only certain considerations and is qualified in its entirety by the Prospectus, Supplement and Key Information Document ("KID") and prospective investors are urged to consult with their own tax and legal advisors about the implications of investing in the Fund. Fees and expenses can be expected to reduce the Fund's return. Please refer to the KID risk profile. The Fund may make use of financial derivatives instruments for the purpose of hedging the risks inherent to other investments of the Fund, which can involve significant risks of loss.

Market Conditions. The Fund's strategy is based, in part, upon the premise that investments will be available for purchase by the Fund at prices that the Fund considers favourable. To the extent that current market conditions change or change more quickly than Neuberger Berman Group, LLC or an affiliate (collectively, "Neuberger") currently anticipates, investment opportunities may cease to be available to the Fund or investment opportunities that allow for the targeted returns described herein may no longer be available.

No Assurance of Investment Return. There can be no assurance or guarantee that the Fund's objectives will be achieved, that the past, targeted or estimated results presented herein will be achieved, or that investors in the Fund ("Investors") will receive any return on their investments in the Fund. The Fund's performance may be volatile. Past activities of investment entities sponsored by Neuberger provide no assurance or guarantee of future results. The Fund's intended strategy relies, in part, upon the continuation of existing market conditions in certain countries (including, for example, supply and demand characteristics or continued growth in GDP) or, in some circumstances, upon more favourable market conditions existing prior to the termination of the Fund. No assurance or guarantee can be given that investments meeting the Fund's investment objectives can be acquired or disposed of at favourable prices or that the market for such investments (or market conditions generally) will either remain stable or, as applicable, recover or improve, since this will depend upon events and factors outside the control of the Fund's investment team. Notwithstanding anything in this presentation to the contrary, Neuberger may vary its investment processes and/or execution from what is described herein.

Legal, Tax and Regulatory Risks. Legal, tax and regulatory changes (including changing enforcement priorities, changing interpretations of legal and regulatory precedents or varying applications of laws and regulations to particular facts and circumstances) could occur during the term of the Fund that may adversely affect the Fund or its investors.

Use of Leverage. The Fund may employ leverage and engage in borrowing in connection with its investment activities or participate in investments with highly leveraged capital structures. Although the use of leverage may enhance returns and increase the number of investments that can be made, leverage also involves a high degree of financial risk and may increase the exposure of such investments to factors such as rising interest rates, downturns in the economy, or deterioration in the condition of the assets underlying such investments.

Borrowings. The borrowings of the Fund may in certain cases be secured by the capital commitments of the investors and the other assets of the Fund, which may increase the risk of loss of such assets.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance or guarantee that the Fund will be able to locate, consummate and exit investments that satisfy the Fund's rate of return objectives or realize upon their values or that it will be able to invest fully its committed capital.

Reliance on Key Management Personnel. The success of the Fund will depend, in large part, upon the skill and expertise of certain Neuberger professionals. In the event of the death, disability or departure of any key Neuberger professionals, the business and the performance of the Fund may be adversely affected.

Potential Conflicts of Interest. The Board of Directors, the Alternative Investment Fund Manager, the Portfolio Managers, the Depositary, the Administrator and the other service providers of the Fund, and/or their respective affiliates, members, employees or any person connected with them may be subject to various actual or potential conflicts of interest in their relationship with the Fund.

Limited Liquidity. An investment in the Fund should be regarded as illiquid. Shares are not generally transferable without the prior consent of the Board of Directors, redemption rights are restricted, and transfers may be subject to restrictions under applicable law. In addition, the Fund's investments may become less liquid or illiquid due to adverse conditions affecting an issuer, counterparty or the market generally, as well as legal, regulatory or contractual restrictions on the sale of certain instruments.
