Sector weightings are as of the date indicated and are subject to change without notice. The benchmark is the Russell 1000 Value Index (Net Total Return). The Index measures the performance of the large cap value segment of the US equity universe. It includes those Russell 1000 companies with relatively lower price-to-book ratios, lower I/B/E/S forecast medium term (2 year) growth and lower sales per share historical growth (5 years). The Index is reconstituted annually to ensure represented companies continue to reflect value characteristics. The Fund does not intend to track this index, which is included here for exposure comparison purposes only. Indices are unmanaged and cannot be invested in directly. Index returns assume reinvestment of dividends and capital gains and unlike fund returns do not reflect fees or expenses.
