What were the Fund's costs for the year? (based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Class E	\$9	0.09%

How did the Fund perform last year?

Security selection within Gas Distribution, Super Retail and Utilities were the top contributors to performance relative to the ICE BofA U.S. High Yield Constrained Index (the Index). From a ratings perspective, security selection within B and CCC & below rated securities were the top performers. Conversely, an underweight in Media-Broadcast and security selection within Chemicals and Real Estate & Homebuilders detracted the most from performance. From a ratings perspective, the overweight to CCC & below and underweight to BB rated bonds versus the Index detracted modestly from returns.

The graph shows how a hypothetical investment in the Fund changed in value over the period and for the amount indicated above, and compares it with a broad-based market index and, if applicable, an additional index. The graph and table do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the sale of Fund shares. The performance prior to Class E's inception date of January 11, 2022 is that of the Fund's Investor Class, which had higher expenses than Class E so its performance typically would have been lower than that of Class E. **Results represent the Fund's past performance, which is not a good predictor of how the Fund will perform in the future.** For current performance, please visit www.nb.com/performance.
