Neuberger High Yield Bond Fund

FUND OBJECTIVE

The fund aims to increase the value of your shares through a combination of growth and income from investments in high yield bonds (debt securities). High yield bonds have a lower credit rating because they carry a higher risk of not being paid back. High yield bonds typically offer a higher income to make them attractive to investors. The fund invests primarily in high yield bonds issued by US corporations and non-US corporations which conduct a majority of their activity in the US. The fund may also invest in securities of companies and governments located in emerging market (less developed) countries.

MANAGEMENT TEAM

Chris Kocinski, CFA

Effective 4 August 2026, the fund's name was updated to reflect the firm's rebranding from Neuberger Berman or NB to Neuberger. No other changes have been made to the fund.
The fund is actively managed, which means that the investments are selected at the discretion of the investment manager. The Benchmark is used for performance comparison purposes. The fund's investment policy restricts the extent to which the fund's holdings may deviate from the benchmark, but the fund is not exclusively limited to the securities of the benchmark.
Fund characteristics are shown as of 31 August 2026. Performance data is shown as of 28 August due to a fund holiday whilst benchmark data is as of 31 August.

[1]Performance to latest month end. YTD - Year to Date, SI - Since Inception. 12 month period based on month end NAVs.
[2]Returns for these periods are cumulative.
[3]Returns are annualised for periods longer than one year.
[4]Returns from 03 May 2006 to latest month end.
[5]Performance for the current calendar year is the year to date.

Fund performance is representative of the USD I Accumulating Class and has been calculated to account for the deduction of fees. Investors who subscribe in a currency other than the base currency of the fund should note that returns may increase or decrease as a result of currency fluctuations. **Fund performance does not take account of any commission or costs incurred by investors when subscribing for or redeeming shares.**

Credit quality ratings are based on the ICE Bank of America ("ICE BofA") Master High Yield Index composite ratings. The ICE BofA composite ratings are updated once a month on the last calendar day of the month based on information available up to and including the third business day prior to the last business day of the month. The ICE BofA composite rating algorithm is based on an average of the ratings of three agencies (to the extent rated). Generally the composite is based on an average of Moody's, S&P and Fitch. For holdings that are unrated by the ICE BofA Index composite, credit quality ratings are based on S&P's rating. Holdings that are unrated by S&P may be assigned an equivalent rating by the investment manager. No NRSO has been involved with the calculation of credit quality and the ratings of underlying portfolio holdings should not be viewed as a rating of the portfolio itself. Portfolio holdings, underlying ratings of holdings and credit quality composition may change materially over time.

*The ongoing charge figure (which includes the management fee) is an annual charge based on expenses for the period ending 31 December 2025. The Fund Price shown for a Share Class is in that Share Class's currency.

Some share classes listed are subject to restrictions, please refer to the fund's prospectus for further details.
Investors who subscribe in a currency different from their local currency should note that the costs may increase or decrease as a result of currency and exchange rate fluctuations.

Before subscribing please refer to the Prospectus.

For a full glossary of terms, please refer to **www.nb.com/glossary**

Hedged Share Class. Hedged share classes which are designated in a currency other than the base currency of the fund, are hedged into the base currency. For details please refer to the prospectus.

Fund price is as of the date of the factsheet. Please note that the last distribution quoted is the dividend payout per share on the relevant share class's last distribution date which varies
(monthly, weekly, quarterly, semi-annually or annually) and may be different from the date of the factsheet.

The annual yield figure quoted is the distribution yield, calculated by multiplying the dividend by pay periods, dividing by the net asset value (NAV) of the last distribution date and then multiplying by 100%. It is for reference only and is not indicative of the return of the Fund's future dividend to be received by investors.

In respect of distributing share classes, the Directors of the Company may at their discretion pay dividends out of the capital of the Fund. Dividends paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Such dividends may result in an immediate decrease in the net asset value (NAV) of the relevant shares. Dividends are not paid for all share classes and are not guaranteed. A positive distribution yield does not imply a positive return, and some share classes listed are subject to further restrictions. Please refer to the Fund's prospectus for further details.

RISK CONSIDERATIONS

Market Risk: The risk of a change in the value of a position as a result of underlying market factors, including among other things, the overall performance of companies and the market perception of the global economy.

Emerging Markets Risk: Emerging markets are likely to bear higher risk due to a possible lack of adequate financial, legal, social, political and economic structures, protection and stability as well as uncertain tax positions which may lead to lower liquidity. **The NAV of the fund may experience medium to high volatility due to lower liquidity and the availability of reliable information, as well as due to the fund's investment policies or portfolio management techniques.**

Liquidity Risk: The risk that the fund may be unable to sell an investment readily at its fair market value. In extreme market conditions this can affect the fund's ability to meet redemption requests upon demand.

Credit Risk: The risk that bond issuers may fail to meet their interest repayments, or repay debt, resulting in temporary or permanent losses to the fund.

Interest Rate Risk: The risk of interest rate movements affecting the value of fixed-rate bonds.

Counterparty Risk: The risk that a counterparty will not fulfil its payment obligation for a trade, contract or other transaction, on the due date.

For Wholesale Investor Use Only.

Neuberger High Yield Bond Fund

Operational Risk: The risk of direct or indirect loss resulting from inadequate or failed processes, people and systems including those relating to the safekeeping of assets or from external events.

Derivatives Risk: The Fund is permitted to use certain types of financial derivative instruments (including certain complex instruments). This may increase the Fund's leverage significantly which may cause large variations in the value of your share. (Investors should note that the Fund may achieve its investment objective by investing principally in Financial Derivative Instruments (FDI)). Certain investment risks apply in relation to the use of FDI. The use of leverage can amplify both gains and losses, which may result in a significant or a total loss of the fund's value in adverse market conditions.

Currency Risk: Investors who subscribe in a currency other than the base currency of the fund are exposed to currency risk. Fluctuations in exchange rates may affect the return on investment. Where past performance is shown it is based on the share class to which this factsheet relates. **If the currency of this share class is different from your local currency, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency.**
For full information on these and other risks, please refer to the fund prospectus and offering documents, including the KID or KIID, as applicable.

This Fund meets the requirements of Article 8 of the SFDR. Further information is available in the Fund's offering documents and at www.nb.com

NB Australia, its officers, employees and affiliates, and any of their advisers, (each a "Limited Person"), do not represent that such information is accurate or complete, and it should not be relied upon as such. Certain information contained in this document (including any forward-looking statements and economic and market information) has been obtained from published sources and/or prepared by third parties and in certain cases has not been updated through the date of this document. While such sources are believed to be reliable, no Limited Person assumes any responsibility for the accuracy or completeness of such information. Such forward looking statements involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of each Limited Person and which may cause actual results, performance or achievements to differ materially from those expressed or implied by such statements. Any views or opinions expressed may not reflect those of each Limited Person as a whole. In addition, nothing in this document constitutes legal, accounting or tax advice.
