Credit Quality ^{1,2}**Past performance does not predict future returns.**

Sources: Blackrock Aladdin as of June 30, 2026. Numbers may be slightly off due to rounding.

1. Credit quality ratings use Barclays generic quality rating based on Moody's, S&P, and Fitch expressed in S&P nomenclature as follows: 1) if Moody's, S&P and Fitch all provide a credit rating, the Index Rating is the median of the three agency ratings; 2) if only two agencies provide ratings, the Index Rating is the more conservative rating; 3) if only one agency provides a rating, the Index Rating reflects that agency's rating; or 4) if none of the agencies provide ratings, the security is considered not rated and may be assigned an equivalent rating by the investment adviser.
2. Chart represents the ratings of the securities held by the Strategy and does not imply any credit rating of the Strategy itself. Credit-quality ratings are obtained from Barclays using ratings derived from Moody's, S&P, and Fitch. When calculating the credit quality breakdown, if a security is rated by each of these three rating agencies, then the middle rating will be used. If only two rating agencies rate a security, then the lower of the two ratings will be used. If only one rating agency rates a security, then that one rating will be used. Where none of the agencies rate a security, the security will be considered unrated. Portfolio holdings, underlying ratings of holdings and credit quality composition may change materially over time.

Key Risks

Counterparty Risk: The risk that a counterparty will not fulfil its payment obligation for a trade, contract or other transaction, on the due date.

Credit Risk: The risk that bond issuers may fail to meet their interest repayments, or repay debt, resulting in temporary or permanent losses to the fund.

Currency Risk: Investors who subscribe in a currency other than the base currency of the fund are exposed to currency risk. Fluctuations in exchange rates may affect the return on investment. Where past performance is shown it is based on the share class to which this factsheet relates.

If the currency of this share class is different from your local currency, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency.

Derivatives Risk: The Fund is permitted to use certain types of financial derivative instruments (including certain complex instruments). This may increase the Fund's leverage significantly which may cause large variations in the value of your share. (Investors should note that the Fund may achieve its investment objective by investing principally in Financial Derivative Instruments (FDI)). Certain investment risks apply in relation to the use of FDI. The use of leverage can amplify both gains and losses, which may result in a significant or a total loss of the fund's value in adverse market conditions

Emerging Markets Risk: Emerging markets are likely to bear higher risk due to a possible lack of adequate financial, legal, social, political and economic structures, protection and stability as well as uncertain tax positions which may lead to lower liquidity. The NAV of the fund may experience medium to high volatility due to lower liquidity and the availability of reliable information, as well as due to the fund's investment policies or portfolio management techniques.

Interest Rate Risk: The risk of interest rate movements affecting the value of fixed-rate bonds.

Liquidity Risk: The risk that the fund may be unable to sell an investment readily at its fair market value. In extreme market conditions this can affect the fund's ability to meet redemption requests upon demand.

Market Risk: The risk of a change in the value of a position as a result of underlying market factors, including among other things, the overall performance of companies and the market perception of the global economy.

Operational Risk: The risk of direct or indirect loss resulting from inadequate or failed processes, people and systems including those relating to the safekeeping of assets or from external events.

For full information on these and other risks, please refer to the fund prospectus and offering documents, including the KID or KIID, as applicable.

This Fund meets the requirements of Article 8 of the SFDR. Further information is available in the Fund's offering documents and at www.nb.com

Past performance is not a reliable indicator of future results. The value of investments may go down as well as up and investors may not get back any of the amount invested. The performance data does not take account of the commissions and costs incurred by investors when subscribing for or redeeming shares.

The value of investments designated in another currency may rise and fall due to exchange rate fluctuations in respect of the relevant currencies. Adverse movements in currency exchange rates can result in a decrease in return and a loss of capital.

Tax treatment depends on the individual circumstances of each investor and may be subject to change, investors are therefore recommended to seek independent tax advice.

Investment in the fund should not constitute a substantial proportion of an investor's portfolio and may not be appropriate for all investors. Diversification and asset class allocation do not guarantee profit or protect against loss.

Compliance Statement

Neuberger Berman Group LLC ("NB", "Neuberger Berman" or the "Firm") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Neuberger Berman has been independently verified for the period January 1, 2011 to December 31, 2024. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. The GIPS® firm definition was redefined effective January 1, 2011. For prior periods there were two separate firms for GIPS® firm definition purposes and such firms were independently verified for the periods January 1, 1997 to December 31, 2010 and January 1, 1996 to December 31, 2010, respectively. The Firm definition was most recently changed in 2020 to include the addition of Neuberger Berman Loan Advisers LLC and Neuberger Berman Loan Advisers II LLC, and in 2024 to include the addition of Neuberger Berman Loan Advisers IV LLC.

Definition of the Firm

The firm is currently defined for GIPS® purposes as Neuberger Berman Group LLC, ("NB", "Neuberger Berman" or the "Firm"), and includes the following subsidiaries and affiliates: Neuberger Berman Investment Advisers LLC, Neuberger Berman Europe Ltd., Neuberger Berman Asia Ltd., Neuberger Berman East Asia Ltd., Neuberger Berman Singapore Pte. Ltd., Neuberger Berman Taiwan (SITE) Ltd, Neuberger Berman Australia Ltd., Neuberger Berman Trust Company N.A., Neuberger Berman Trust Company of Delaware N.A., Neuberger Berman Canada ULC, Neuberger Berman Loan Advisers LLC, Neuberger Berman Loan Advisers II LLC and Neuberger Berman Loan Advisers IV LLC. In December 2022, the firm decided to exclude NB Alternatives Advisers LLC from the GIPS Firm Definition.

Policies

Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Composite Description

The Short Duration Strategic Multi-Sector Fixed Income composite (the "Composite") represents the performance of all fee-paying Short Duration Strategic Multi-Sector portfolios, with no minimum investment. The strategy is designed for investors who seek an attractive current income from a portfolio that invests predominately in a diversified mix of investment grade short-term fixed and floating rate debt securities, with tactical allocations to non-investment grade securities. The Composite creation date is June 2021 and performance inception date is August 2019. A complete list and description of the NB Composites and performance results is available upon request.

Primary Benchmark Description

The benchmark is the Bloomberg U.S. Government/Credit 1-3 Year Index (the "Index"). The Index includes securities in the Government and Credit Indices with a maturity from 1 up to (but not including) 3 years. The Government Index includes treasuries (i.e., public obligations of the U.S. Treasury that have remaining maturities of more than one year) and agencies (i.e., publicly issued debt of U.S. Government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. Government). The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements.

Reporting Currency

Valuations are computed and performance is reported in U.S. Dollars. Performance includes reinvestment of dividends and other earnings.

Fees

Composite Gross of Fee returns are the return on investments reduced by any trading expenses incurred during the period. Composite Net of Fee returns are the Gross of Fee returns reduced by model investment advisory fees of 0.25%. Composite Net of Fee returns calculated using model fees deduct 1/12th of the highest tier of the fee schedule from the monthly composite gross returns.

Presented risk measures are calculated using gross-of-fee composite returns.

To the extent that a composite contains fund(s) whereby performance is calculated based on changes in monthly NAV's, net returns reflect miscellaneous fund expenses (admin, legal, etc.) in addition to investment management fees for the portion of composite containing these vehicles.

Fee Schedule

The annual investment advisory fee, generally payable quarterly, is as follows: 0.25% on the first \$100mn; 0.20% on the next \$150mn; 0.15% on the next \$250mn; 0.10% thereafter.

Internal Dispersion

Internal dispersion is calculated using the asset-weighted standard deviation of annual gross returns of those portfolios that were in the Composite for the entire year. Internal dispersion is not calculated if the Composite does not contain at least 6 portfolios for the entire year.

Annualized Standard Deviation

The three-year annualized standard deviation measures the variability of the Composite and the benchmark returns over the preceding 36-month period. The standard deviation is not required for periods prior to 2011.

Availability and Trademark Disclosures

The firm's list of composite descriptions, limited distribution pooled fund descriptions, and broad distribution pooled fund descriptions are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Additional Notes and Disclosures

Starting from September 1, 2022, Composite Net of Fee return calculations for this composite were changed from using actual investment advisory fees to using model investment advisory fees.
