**Annualised Yield = (Dividend per Share ÷ Number of Days in the Month) x 365 ÷ Month-end NAV x 100%. The Number of Days in the 1st month is calculated from the inception date of the share class.

Please note dividend yield is for information only, it is not indicative of return of the Fund and does not imply perspective yields of the Fund. A positive distribution yield does not imply a positive return.

The Fund aims to pay dividend on a regular basis. However, dividend amount or dividend rate is not guaranteed. In respect of Distributing Shares, the Directors of the Company may at its discretion pay dividends out of the capital of the Fund. Dividends paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Such dividends may result in an immediate decrease in the net asset value of the relevant shares. The Directors of the Company may determine if and to what extent distributions paid include realized capital gains and/or paid out of capital attributable to the relevant share class.
