PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

The Portfolio is only suitable for investors who are prepared to accept the general risks associated with investing in Emerging Market Countries and the risks of bond markets over the medium to long term, together with medium to high levels of volatility due to the Portfolio's investment policies or portfolio management techniques. **You should consult your financial adviser if in doubt whether this product is suitable for you.**

Further Information
Refer to "INVESTOR PROFILE" of the Singapore Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of Neuberger Berman Investment Funds plc, which is an investment company incorporated under the laws of Ireland and authorised as a UCITS umbrella fund by the Central Bank of Ireland.
- The Portfolio aims to achieve a target average return of 1% over the Benchmark before fees over a market cycle (typically 3 years) by investing primarily in a blend of investment grade rated hard and local emerging market currency denominated debt, issued by sovereigns, quasi-sovereigns, sub-sovereigns and corporate credits in Emerging Market Countries that meet the Neuberger Sustainable Exclusion Policy.
- Dividend policy:
 - o Accumulating shares: No dividends will be paid.
 - o Distributing shares: Dividends will be declared on a quarterly basis (and paid within 30 Business Days thereafter) or, in respect of (Monthly) Distributing Classes, shall be declared on or prior to the last Business Day of each month (and paid within three Business Days thereafter) at the discretion of the Directors.

Refer to "THE COMPANY", "THE PORTFOLIOS" and "INVESTMENT OBJECTIVE, FOCUS AND APPROACH" of the Singapore Prospectus for further information on features of the product.

Investment Strategy

- The Portfolio will invest primarily in investment grade debt securities and money market instruments which are issued by governments of, government agencies in or corporate

Refer to "INVESTMENT

¹ The Singapore Prospectus is available at the offices of the Singapore representative during normal Singapore business hours or at www.nb.com.

² This Portfolio is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

³ For available Share Class(es) inceptioned before 31 December 2025.

issuers which have their head office or exercise an overriding part of their economic activity in Emerging Market Countries and which are denominated in or are exposed to the currencies of such Emerging Market Countries ("Local Currency") or denominated in Hard Currency. • With the exception of permitted investments in transferable securities and money market instruments which are unlisted, all securities invested in by the Portfolio will be listed, dealt or traded on Recognised Markets globally, without any particular focus on any one industrial sector or region. • Under normal market conditions, the Manager and the Sub-Investment Manager will invest at least two thirds of the Portfolio's NAV in a blend of debt securities and money market instruments which have been issued by public or private issuers in Emerging Market Countries which are denominated in both Hard and Local Currencies. • The Manager and the Sub-Investment Manager promote a variety of environmental and social characteristics using the Neuberger Quotient and prioritise investment in securities issued by issuers with a relatively favourable and/or an improving Neuberger Quotient rating. The Portfolio does not invest in issuers which rank in the bottom quartile in terms of their Neuberger Quotient. • The Manager and Sub-Investment Manager implement a systematic and disciplined framework for analysing sovereign and corporate Local Currency and Hard Currency debt securities. • A maximum of 40% of the Portfolio's NAV may be invested in quasi-sovereign (100% state owned or explicit sovereign guarantee) securities, with a maximum exposure of 8% of the Portfolio's NAV to any one such issuer. • The maximum proportion of the Portfolio's NAV that can be subject to total return swaps is 20%. The expected proportion of the Portfolio's NAV that will be subject to total return swaps is 1%. The Portfolio will not utilise securities lending or margin lending. • The Portfolio may use FDIs for investment purposes, efficient portfolio management purposes and/or hedging purposes. The Portfolio is expected to be leveraged up to 400% of its NAV as a result of its use of FDI, although investors should note that higher levels of leverage may be experienced. • The Portfolio may have or may be expected to have medium to high volatility due to its investment policies or portfolio management techniques.	OBJECTIVE, FOCUS AND APPROACH" of the Singapore Prospectus for further information on the investment strategy.
Parties Involved	
WHO ARE YOU INVESTING WITH? • You are investing in Neuberger Berman Investment Funds plc, an umbrella fund of which the Portfolio is a sub-fund. • The manager is Neuberger Berman Asset Management Ireland Limited and the sub-investment managers are Neuberger Berman Investment Advisers LLC, Neuberger Berman Singapore Pte. Limited and Neuberger Berman Europe Limited. • The depositary is Brown Brothers Harriman Trustee Services (Ireland) Limited.	Refer to "THE COMPANY", "MANAGEMENT", "OTHER PARTIES" and "INSOLVENCY OF THE PARTIES" of the Singapore Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its dividends or coupons (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:	Refer to "RISK FACTORS" of the Singapore Prospectus for further information on the risk of the product.
Market and Credit Risks	
• Fixed Income Securities and Downgrade Risk – Fixed income securities are subject to credit risk and price volatility. Fixed income securities are also exposed to the risk of being downgraded, which can cause a significant drop in the value of the Portfolio. The Manager or Sub-Investment Manager may or may not be able to dispose of the debt instruments that are being downgraded.	

• Lower Rated Securities Risk – The Portfolio may invest in lower rated or unrated (i.e. non-investment grade or high yield) securities, which are more likely to react to developments affecting market and credit risk than are more highly rated securities. The Portfolio may therefore find it more difficult to sell such high yield securities or may be able to sell these securities only at prices lower than if such securities were widely traded. The Portfolio may experience difficulty in valuing certain securities at certain times. • Credit Risk – The Portfolio may invest in corporate fixed income securities. Corporate issuers of such fixed income securities may fail to meet their interest repayments, or repay debt, which may result in the Portfolio suffering temporary or permanent losses. • Sovereign Debt Risk – The Portfolio may invest in government/sovereign fixed income securities. The Portfolio will be exposed to direct or indirect consequences of political, social and economic changes in various countries by investing in sovereign debts. • Emerging Market Economies Risk and Emerging Market Debt Securities Risk – Investing in emerging markets may involve heightened risks (some of which could be significant) such as greater social, economic and political uncertainty, and periods of extreme volatility. Debt securities of Emerging Market Countries may be subject to greater risk of loss of principal and interest and liquidity risk, and be exposed to fluctuations in yields or prices, than debt securities issued by obligors in developed countries. • Currency Risk – The base currency value of the investment of the Portfolio designated in another currency may rise and fall due to exchange rate fluctuations in respect of the relevant currencies. The currency exchange rates of Emerging Market Countries tend to be more volatile than those of more developed countries. As the base currency of the Portfolio is not in Singapore dollars, Singapore investors may be exposed to an additional currency risk. • Currency Hedging Risk – Currency hedging instruments may involve the risk of a default by a counterparty. • Sustainable Style Investment Risk – The application of ESG criteria could affect the Portfolio's exposure and could impact the Portfolio's investment performance. Information used to evaluate the application of ESG factors may not be readily available, complete or accurate, which could negatively impact the Portfolio's performance or create additional risk.	
Liquidity Risks	
• The Portfolio is not listed in Singapore and you can redeem only on Dealing Days – There is no secondary market for the Portfolio. The Portfolio may be unable to sell an investment readily at its fair market value. This may affect the value of the Portfolio and in extreme market conditions, its ability to meet redemption requests upon demand. Your right to redeem may be suspended or deferred under certain circumstances.	
Product-Specific Risks	
• Risks relating to the use of FDI – FDIs may be subject to various types of risks, including market risk, liquidity risk, counterparty credit risk, legal risk and operations risk. In addition, FDIs can involve significant economic leverage and may, in some cases, involve high risk of significant loss. The use of FDIs may lead to risk of loss of capital or increase the volatility of the Portfolio's NAV. • High Leverage Risk – The Portfolio may have a net leveraged exposure of over 100% of its NAV as a result of its use of FDI, and may result in a significant or a total loss of the Portfolio. • Risks relating to dividend payment – Dividends paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment which may result in an immediate decrease in the NAV of the relevant shares. An investment in high yield securities does not necessarily imply high dividend distribution for all share classes.	
FEES AND CHARGES	
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?	
Payable directly by you – You will need to pay the following fees and charges:	
Initial sales charge	Up to 5% of the purchase price
Realisation fee	Currently nil
Refer to “FEES AND CHARGES” of the Singapore Prospectus	

Exchange charge	Up to 1% of the subscription price*	for further information on fees and charges.
Any other fee or charge	Duties and charges to cover dealing costs and to act as an anti-dilution levy may be imposed on a subscription or redemption	

*The initial sales charge and exchange charge may be charged by distributors. Additional fees may be payable by you to a Singapore distributor. Please contact the relevant Singapore distributor for details.

Payable by the Portfolio from invested proceeds

The Portfolio will pay the following fees (as a % of the Portfolio's NAV) in respect of the "A" Class Shares to the manager, depository and other parties:

Management Fee	1.20% per annum
(a) Retained by Manager	(a) 40% to 100% of Management Fee
(b) Paid by Manager to financial adviser (trailer fee)	(b) 0% to 60% ⁴ of Management Fee
Custody Fee	Up to 0.02% per annum
Administration Fee	Up to 0.20% per annum

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The NAV per share in respect of each Dealing Day is normally available on www.nb.com on the following Business Day.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COST IN DOING SO?

- The Company does not offer a right to cancel subscriptions into the Portfolio, but you should check if your Singapore distributor will allow you to do so. You can exit the Portfolio by submitting your redemption form to the Singapore distributor from whom you had originally purchased your shares. Shares may be redeemed on any Dealing Day.
- Redemption proceeds will normally be made to Singapore distributors within 10 Business Days and you should check with your Singapore distributor when you can expect to receive your redemption proceeds.
- The redemption price of your shares is determined as follows:
 - o If your redemption form is received by the Administrator before 3 p.m. (Irish time) on a Dealing Day, your Shares will normally be redeemed at their NAV as of that Dealing Day.
 - o If your redemption form is received by the Administrator after 3 p.m. (Irish time) on a Dealing Day, your Shares will normally be redeemed at their NAV as of the next Dealing Day.

(Please confirm with your Singapore distributor the applicable Singapore cut-off time for receiving your redemption form in order for your Shares to be redeemed at their NAV as of a particular Dealing Day)

- The redemption proceeds that you will receive will be the redemption price per share multiplied by the number of shares redeemed, less any charges. An example is as follows:

<u>1,000 shares</u>	x	<u>\$1.10</u>	=	<u>\$1,100</u>	-	<u>\$0</u>	=	<u>\$1,100</u>
<i>Redemption request</i>		<i>Redemption Price</i>		<i>Gross Redemption Proceeds</i>		<i>Redemption Charge*</i>		<i>Net Redemption Proceeds</i>

*There is currently no redemption charge payable however, you may be subject to duties and charges on your redemption.

Refer to "SUBSCRIPTION FOR SHARES - Cancellation of Subscription", "REDEMPTION OF SHARES" and "OBTAINING PRICE INFORMATION IN SINGAPORE" of the Singapore Prospectus for further information on valuation and exiting from the product.
