2013 Equity Funds Income Dividends and Capital Gain Distributions

Every year, mutual funds must distribute to shareholders any net investment income and net realized capital gains in order to satisfy the requirements of the Internal Revenue Code applicable to mutual funds. The 2013 distributions from our Equity Funds can be viewed below.

For all of the Equity Funds' classes of shares, the income dividends and capital gain distributions are payable on December 17 to "shareholders of record" as of December 13. New shares have been purchased for reinvesting shareholders at net asset values at the closing price on December 16. The source of each payment listed below is based on currently available information.

¹ Certain ordinary dividends paid by the fund may be subject to a maximum tax rate of 20% as provided for by the Internal Revenue Code ("the Code"). Complete information will be reported in conjunction with your 2013 Form 1099-DIV.

² Taxed as ordinary income.

³ Certain long-term gains paid by the fund may be subject to a maximum tax rate of 20% as provided for by the Code. Complete information will be reported in conjunction with your 2013 Form 1099-DIV.

⁴ After calendar year-end, REITs and other Real Estate Companies can and often do change the category (e.g. ordinary income dividend, capital gain distribution, or return of capital) of the distributions they have made during that year, which could result at that time in the fund also having to re-categorize some of the distributions it made to its shareholders. These would be reflected in your annual Form 1099, together with other tax information.

⁵ The dividend and distribution payable by Equity Income Fund was impacted by the tax treatment of certain investments.
